

CONTENTS

- 1 Research and Benefit Analysis of High-Performance Fiber-Reinforced Precision Rubber-Plastic Composites for Green Manufacturing
Tao Chen
- 8 Geospatial Analysis of Flood Vulnerability Using GIS-Based Multi-Criteria Decision—Analysis for Ahoada East and West Local Government Areas of Rivers State, Nigeria
Frank Bikume Mokie Sam
- 24 Integrated Evaluation of Smart City Information Products: A Study on Application Expansion and Urban Governance Enhancement
Jin Zhang
- 31 Application of Learning Analytics Technology in Architectural Education Informatics
Hongfei Yu, Xiaoqin Nan
- 38 Dynamic Protocol Adaptation Mechanism and Standardization Path for Cross-Border Hotel Direct-Connect Interfaces
Chao Zhang
- 46 Research on the Self-Organization and Automation Mechanism of Cross-Border Supply Chains Empowered by Intelligent Perception and Their Adaptability
Dingsong Ni
- 54 Integration and Cost Optimization of Lightweight IoT Technology in the Renovation of Small and Medium-Sized Apartments
Han Liu
- 61 Small-Pitch LED Display Technology Innovation Path and Commercial Value: From Technological Progress to Industrial Ecosystem Construction
Hong Liang
